

**EXPANSION OF MANAGEMENT**

Since 1<sup>st</sup> of January 2005 the leadership and the responsibility of Consulting Management **Symanski** have been represented by two owners. Together with Detlef Symanski his wife Izabela Symanski, (born: Marciniak) has taken over functions inside CM:S with equal rights. The Anglicist had studied in Łódź as well as in London, Los Angeles and San Francisco before she began in 1998 her activity in forwarding business.

Since the beginning of 2005 a teamwork, already approved in earlier years, has been going on in CM:S. There is no defined division area whether of competence or duties. Multitude of small or medium sized projects will be always individually 'pampered' by one of the owners. Larger sized or long-lasting projects will be supervised together. A special meaning is given to "Poland", as the field of activity. Due to the mother tongue as well as the country of origin of Mrs. Symanski, CM:S is able to offer a high qualified consultation on both relation levels: from East to West and vice versa.

Owing to the pedagogical skills based on the education of Mrs Symanski, our offer can branch out into trainings.
